

# SOQUELEC

TELECOMMUNICATIONS LTEE

**SOQUELEC TELECOMMUNICATIONS** is the North American representative for various RF, Microwave, Millimeter Wave and Fiber Optic components manufacturers located in the U.S.A. and abroad. Since 1974, SOQUELEC TELECOMMUNICATIONS has been supplying the telecom industry in the Americas with leading edge technology products at very competitive prices.

SOQUELEC Telecommunications Ltée. 5524 Rue Saint Patrick, Suite 405 Montreal QC Canada H4E 1A8

Tel.: (514) 482 6427 Fax: (514) 482 1929

**ARRA** [ARRA – Coax/WG Components DC-40 GHz](#)

For over 60 years ARRA (Antenna & Random Research Associates) has been a global innovator in designing, manufacturing, distribution of coaxial and waveguide components. Supplying dependable, cost effective solutions to commercial and military customers worldwide. Their vast products line includes: Coaxial & Waveguide Components in the DC-40 GHz range. Fixed & Var. Attenuators, Couplers, Dividers, Filters, Hybrids, Loads, Phase Shifters, Terminations & Microwave Training Kit.

**DELVA-1** [ELVA 1 – mmWave Devices and Components](#)

UStrip and Planar Antenna. IMPATT Frequency Multiplier. Electronic controlled Attenuator. BWO-Powered Sweepers & Wave Generators. MMW Sources with PWR Modulation. IMPATT MMW Oscillators. Network Analysers. Gunn Sources.

**EMPOWER** [EMPOWER : High Power Amplifiers](#)

Empower RF Systems is a global leader in high power RF and microwave amplifier systems and modules solutions for EMC testing, military and wireless applications. Empower RF Designs and manufactures standard and custom products incorporating state-of-the-art GaN, LDMOS, MOSFET, GaAsFET and bipolar device technologies.  
High Power RF amplifier Modules and systems up to 500 MHz , 1000 MHz, 2500 Mhz and 6000MHz.  
MARKETS: ELECTRONIC ATTACK, TEST AND MEASUREMENT, COMMUNICATIONS and RADAR.

[Gigalane – Connectors, Adapters, Cables Assemblies, Switches, DC Blocks, Bias Tees & Attenuators](#)

Gigalane manufacturers full Line of connectivity Solutions:

RF & Microwave Connectors: 2.4mm, 2.92mm, SMA, N Type, MCX, MMCX, AMB & SLM

RF & Microwave Adapters: Precision adapters in series, Precision adapters between series & Standard Adapters

RF & Microwave Cable assemblies

RF Switch Plugs & Jacks & Coaxial Micro Plugs & Jacks

**恒达微波** [HD Microwave – Waveguide components](#)

Waveguide Tube, Straight Waveguide, Waveguide Bend, Waveguide Twist, Waveguide Transition, Waveguide to Coaxial Adapter, Crossguide Directional Coupler, Loop Coupler, 3dB Waveguide Combiner/Divider, Waveguide Tee, Waveguide Rotary Joint, Waveguide Termination, Waveguide Attenuator, Waveguide Short, Waveguide Circulator, Waveguide Isolator, Elliptical Waveguide, Waveguide Adjustable Support.

中电科技德清华莹电子有限公司

[Huaying Electronics – Saw Filters and Resonators](#)

Huaying is one of the earliest independent research and development SAW device enterprises, the company produces a variety of acoustic SAW resonator, SAW filter 80 million pcs, the products are reliable in performance, excellent quality, widely used in remote control, security, smart home and other environments.

**MTI** [MTI – flat panel antennas and antenna systems](#)

MTI Wireless Edge Ltd. delivers fixed wireless communication solutions, up to 40 GHz, and caters its wide-ranging product line to the needs of the OEM market. Defense products include: airborne antennas, naval & submarine antennas, ground force antennas. Commercial products include: fixed wireless communication, DF arrays.

SJM PREWELL

[SJM Prewell – Radio Frequency Integrated Circuit \(RFIC\) design](#)

SJM Prewell specializes in radio frequency integrated circuit (RFIC) design with products including low noise amplifiers,

SOQUELEC Telecommunications Ltée. 5524 Rue Saint Patrick, Suite 405 Montreal QC Canada H4E 1A8

Tel.: (514) 482 6427 Fax: (514) 482 1929

**SOQUELEC**  
TELECOMMUNICATIONS LTEE

gain block amplifiers and medium power amplifiers.

SJM Prewell's RFIC department is strong in the design of RFIC and MMIC specializing in the development of high performance Gallium Arsenide integrated circuits (GaAs ICs) for modern wireless telecommunication and infrastructure applications. All products are developed using state-of-the art GaAs, InGaP/GaAs processes utilizing HBT and PHEMT devices.

Products from SJM Prewell include: Low Noise Amplifiers, Gain Blocks, IF Amplifiers, Power Amplifiers, CATV Solutions, Divider, RF Transformers / Baluns

### **RF Morecom – RF & M/W components, modules, systems and Network Management solution**

RF Morecom produces a wide range of RF & Microwave products such as Filters, Duplexers, Multiplexers, POI, Combiners, Couplers, Dividers, Power Amplifiers, Low Noise Amplifiers, RF switch bank module, RF repeater, GPS antenna, Receiver, Portable Network Management System, and controls very LOW PIM below 170dBc.

- Passive Components : Dielectric Resonators, Ceramic filters & Duplexers (Monoblock & Discrete types), Cavity filters and Duplexers,
- GPS : GPS Antennas & Combiner antennas (GPS, GSM & DCS).

RF Morecom Product line has RF & Microwave product group and RF System solution such as repeater for mobile coverage solution and TMA/TMB for base station coverage, expansion, PDU and FEU/MultiCombiner for Base station RF Module solution and other products such as couplers, combiners, splitters, Bias Tee, DC Block and Termination.

RF Morecom provides Femto AP & Repeater Solution and the Point of interface (POI) solution the platform for multi-system combination.

### **Sawtron : IF & RF SAW Filters :**

SAWTRON provides design solutions with software support, on-site process consulting and products of lower loss, steeper shape factor and manufacturable state of the art IF SAW Filters including special RF SAW Filters to satisfying customers.

RF SAW Filters : [139 ~ 999MHz](#) | [1.0 ~ 2.7 GHz](#) | [IF SAW Filters : 10 ~ 99 MHz](#) | [100 ~ 999 MHz](#)

### **Scientific Microwave Corporation – Waveguide Components**

Circulators/Isolators, Filters, Diplexers, Duplexers, Phase Shifters, Stub Tuners, Transducers, Assemblies, Flanges, Couplers, Power Samplers, Terminations, Adapters, Transitions, Straight Sections, Flexible Waveguide & Fixed Attenuators.

### **Southern Microwave – Ferrite Isolators & Circulators**

Southern Microwave manufacturers ferrite circulators and isolator with frequencies from 0.750 to 18 GHz.

The product line includes: connectorized, Drop-In surface mount, double junction, Drop-In flange, Drop-In Micro-Thin, Drop-In Disc isolators and Circulators.

### **SRC Haverhill (now Win Brand) – Cable Assemblies**

Coaxial cables, Microwave Absorbers, Wire Harness. Semi-Rigid and Flexible Coax Cables built to your specifications.

### [Tech Time– Frequency Control Products](#)

Voltage Controlled Crystal Oscillators (VCXO), Standard XO, High Frequency XO, Miniature SMD XO, Frequency Controlled Crystal Oscillators (FCXO); Temperature Compensated Crystal Oscillators (TCXO): (VCTCXO & TCXO) DIL compatible, miniature, standard, VCTCXO super miniature; Clocks: standard & precise; Oven Controlled Crystal Oscillator (OCXO); Crystal Resonators: miniature, super miniature. More products available.

### [Top Microwave – Voltage Controlled Oscillators](#)

VCOs made in USA. Surface Mount, Connectorized and Through Hole packages. TOP offers application targeted models as well as standard general purpose VCO'S. Applications include but are not limited to WLAN, PCMCIA, PCS, Portable Radios, VSAT, Instrumentation, CATV, Up/Down Converters, Frequency Multipliers, Modems, Cellular Telecommunications, Industry / Science / Medical (ISM), wireless Utility Meters, Local Multipoint Distribution Service (LMDS), CDMA, GSM and many more. Custom designs are our specialty. The SMT components ranging from 0201 to QFP304 . Agilent Signal Source Analyzers provide latest analytical capabilities. LPKF Protomat circuit board plotter and MiniContact-RS Plating System allow quick turn prototype PCB fabrication.

### [Transcom – FETs, ICs, MMICs, Amplifiers & Modules](#)

Super Low Noise GaAs FETs, High Linearity and High Efficiency GaAs Power FETs, Super Lower Noise Packaged GaAs FETs, High Linearity and High Efficiency Packaged GaAs Power FETs, Hybrid ICs, Product lines of MMICs, These MMICs including a 1W Ku-Band MMIC, a 2.4 GHz 1W MMIC and a 2.4 GHz 2W MMIC, Amplifiers, MIC Modules & Besides GaAs FETs & MMICs, Transcom also has the in house design capability for sub-system development.
